

**Subject: Quad screen and maternal AFP testing**

Effective Date: 1/28/2008

Explanation of Change: Quad screen and maternal AFP testing will be sent to Mayo Medical laboratories. This will improve turn around time and will allow results to be viewable in both the Laboratory (Softlab) and NWH (Soarian) computer systems without separate reports. Please submit a Second Trimester Alpha-Fetoprotein Maternal Serum/Quad Screening Patient Information Sheet with any orders for these tests. This form is available at the Mayo Medical Laboratory website (<http://216.245.161.151/View.aspx?object=SpecialInstructions&CID=283>) or can be obtained from the laboratory.
